

February 2017 – Harsco Industrial- IKG, the leading bar grating manufacturer partners with North American Steel Alliance.

Harsco Industrial IKG (IKG) is one of the world's leading manufacturers of high quality steel and aluminum bar grating with several manufacturing plants throughout North America. Harsco IKG brings to NASA's 365 operating locations an extensive network of direct sales personnel, distributors and agents serves both the domestic and international markets. www.harscoikg.com

"Harsco – IKG brings **100+** years of experience and customer support to our NASA metal service centers" stated Tim Bobich, NASA's Program Manager. "Their commitment to customers from their extensive manufacturing facilities backed by strong regional sales expertise is critical to our NASA companies" added Bobich.

"IKG's core values to satisfy the customer, operate with integrity, development talent, and drive continuous improvement is the foundation to ensure we provide our customers the best value in the bar grating industry. We are excited at the opportunity to be a supply partner to NASA," stated Chad McClendon, HARSCO IKG VP & General Manager.

North American Steel Alliance, NASA, is celebrating its 20 year anniversary with its 120 metal service center member/owner companies and over 50 preferred supplier partners in 2017. NASA continues to be ranked as one of the top ten purchasing cooperatives in North American based on annual purchases of over \$9Billion. www.steelalliance.com
