Member/Metal Breakout Sessions

NASA’s Fall Conference Day Two features breakout meetings between attending member companies and NASA metal suppliers. This format focuses on *two-way* conversation between customers and suppliers pertinent to the current market and business conditions. The purpose and objectives for these interfacing sessions are:

- Improve communications
- Strengthen relationships
- Identify needs
- Develop action items if needed

Individual company attendees can plan to attend as many as four of these 30-minute sessions between 1PM and 3PM on Tuesday, October 24th. Below is our current schedule but could be subject to changes.
